

In the Claims

Please amend the claims as follows:

Please cancel claims 5 and 7 without prejudice or disclaimer.

- A2*
1. (Once amended) A mount frame for battery modules, for fixing a plurality of rectangular battery modules, comprising a frame having a plurality of openings into which the battery modules are inserted and removed,

wherein the frame has unevenness on an inner surface of each opening, and which frame unevenness is engaged with unevenness on a surface of each battery module.

Please add the following new claim:

- Am*
8. (New) The mount frame of claim 1, wherein the engaging surface unevenness of each battery module has a complementary shape and orientation to the engaging surface unevenness of the opening.
